## **Educational Connections Publishes New Directory**

Grand Valley State's Educational Connections (formerly Talent Search) and the Clearinghouse for Training Resources have recently published the second edition of the Training and Educational Resources Directory. This directory is an easy-to-use handbook listing over 50 schools and programs in the

Grand Rapids area. It provides essential information on various educational and training opportunities in both the public and private sectors. Highlights of the directory include an overview of financial aid programs, maps indicating schools, colleges, and community education sites, a list of occupations with ref-

erences to appropriate educational programs, and an index identifying areas in which students may require special assistance and indicating where these needs can be met.

The directories are available at cost (\$5.50) through the Educational Connections Office, 459-5944.

## **Across Campus**

**Editor's Note:** Because of the recent heavy snowfall, there have been some questions regarding overnight parking restrictions and Grand Valley's emergency closing policy. The Forum repeats the following information as a reminder.

### **Overnight Parking Restrictions**

Following is a reminder from the Department of Safety and Security of the overnight parking regulations on campus. Please refer to Section 2.12, Overnight Parking Restrictions, of the campus Traffic and Parking Ordinance for specific details, particularly item "a": "No overnight parking in Lots C, F, G, H, and J, except with permission of the Director of Safety and Security. Parking between the hours of 3 a.m. and 7 a.m. shall be considered "overnight parking." Also, item "b": "Parking overnight in Lots B,

D, and E (Resident Lots) shall require a 'Reserved' sticker or a temporary permit issued by the Safety and Security Office." During snow removal periods, any vehicle found to be in violation of the ordinance will be subject to impound. Any questions should be referred to the Department of Safety and Security, ext. 3255.

### **Emergency Closing Policy**

Grand Valley State College's emergency closing policy for this year is similar to that for previous years, with WOOD radio (1300-AM and 105.7-FM) in Grand Rapids to be notified first.

Students, faculty and staff are asked not to call the Grand Valley switchboard to ask about closings. Everyone should assume we are open unless they hear otherwise on the media.

The college will close all or part of its operations only in the case of extreme emergency caused by impassable roads, violent weather, energy loss, or other conditions seriously endangering the health and safety of students, faculty, and staff.

Every effort will be made to make the decision to close as early in the day as possible but no later than 7 a.m. for daytime classes and 3 p.m. for evening classes.

Announcement of closing will be made over the following area radio and television stations:

When classes are canceled, all employees are expected to report for work unless the closing announcement indicates that only "essential employees" need report. The following offices will remain open regardless of weather conditions, and all employees in these offices are considered essential and are expected to report: Physical Plant, Health Services, Food Service, Housing, Switchboard Services, Computer Center, and WGVC-TV.

## **GRAND VALLEY FORUM**

The Grand Valley Forum is published every Monday by the Public Relations Office. Copy deadline is the Tuesday noon prior to publication. All materials should be sent to Sharon Coeling, editor, Public Relations Office, 26 Zumbege Library, GVSC, Allendale MI, 49401. Telephone: 895-3221.

(Continued from page 1)

Unless the college is officially closed, faculty members are expected to hold their classes as usual. Individual faculty members who wish to cancel a class or other event should do so only with permission of their dean. In such cases, faculty members are responsible for notifying students for each class they teach. They should refrain from calling secretaries, the Physical Plant, Public Relations, or other campus offices to notify their students. The media will announce only complete closings, not cancellation of individual classes or events.

## Computer Center Hours

Faculty, staff, or students bringing work to the Computer Center or picking up completed computer work should note the following hours of operation for the Computer Center's input/output desk.

Sunday - 1 p.m. to 11 p.m.  
Monday through Thursday - 8 a.m. to 11 p.m.  
Friday - 8 a.m. to 5 p.m.  
Saturday - 5 p.m. to 11 p.m.

If computer preventive maintenance is needed, it will be scheduled from 7:30 to 10:30 a.m. on Fridays.

## Community Education Classes Offered

Allendale Community Education is offering several classes at GVSC this winter including racquetball, weight training, gymnastics, dance, and various swimming classes. More information is available from the Allendale Community Education Office, 895-4353.

## Seat Belt Use Requirement

Daun Slathar, director of the motor pool, reminds all college staff that the state requires all occupants of a state vehicle to wear seat belts. The policy is especially important in the winter when road conditions are often hazardous. The seat belt requirement applies to anyone traveling in a state-owned vehicle, whether or not they are state employees.

## COT Training and Development Update

The COT Training and Development Committee is beginning to plan a 1985-86 schedule of activities. Comments from supervisors in response to the committee's survey concerning training and development needs were encouraging. The committee is considering those comments in making their plans. In general, supervisors indicated they were in favor of training and development opportunities for support staff, although budget limitations were cited as a problem. According to supervisors, training should be directed toward strengthening general skills, exposure to new technology and new knowledge, and personal growth. The committee is interested in hearing opinions on possible activities for next year. Those wishing to comment should contact committee members Donna Schlieve, ext. 3255, or Debra Stormzand, ext. 3215.

The committee is also in the process of planning a spring event for all clerical, office, and technical staff. More information will be published as it becomes available.

## Field House Notes

According to Mike Stodola, manager of the Field House, faculty and staff who use the facilities should note the following:

- Racquetball court reservations can now be made up to seven days in advance. You are more likely to get a court close to your desired hour if you schedule early. Call the Equipment Issue Room, 895-3100, for each reservation.

- The public recreation schedule lists the hours each activity area is open for normal use. Check the special events calendar to see what's happening on a specific day. The word "exclusive" means that area is open only for the listed activity, and that public recreation is not available at that time.

- Walleyball equipment is available for checkout in the Equipment Issue Room, 895-3100.

The sign-line information board at the main entrance lists the events and activities at the Field House.

- A jogger's clock is available in the main arena for timing laps. Each lap on the indoor track is 1/8 of a mile.

- A timing clock for lap swimmers is available for use in the swimming pool.

## Field House Wins Award

Grand Valley's Field House was one of only two college recreation/physical education/athletic facilities nationally to be named a "Facility of Merit" by Athletic Business magazine in December.

## World Needs More 'Universal' Men and Women

"Former Secretary of State Dean Rusk says more 'universal men and women' are needed to solve the world's problems, but he added that he is not sure American colleges and universities are doing enough to develop such individuals.

"Instead, the last half century has seen development of just the opposite: more disciplines, more specialization, said Rusk, now a professor of international law at the University of Georgia, Athens. Rusk was among the speakers at the 'National Conference on the Future of

University Research' held at the Georgia campus.

"Rusk encouraged campuses to help create in people an appetite and curiosity for life-long learning.

"A former president of the Rockefeller Foundation, Rusk said universities need to build a pool of funds to support research, and he suggested that perhaps 100 percent of all funds raised be set aside for this purpose. Federal funding is crucial to the support of university research, he added, but there are pressures on the federal budget to decrease funding, and research tends to be some-

thing that's easily cut or postponed.

"Institutions must 'take themselves to the people,' Rusk said, adding that faculty members should be ready to share their research with the public so the public will understand the need for support.

"Rusk said he generally is optimistic about resources for university research but added that these resources are not something that can be taken for granted."

## Coming Events

### Distinguished Alumni Award Nominations Due

Grand Valley State's first "Distinguished Alumnus/Alumna Awards" will be presented on April 26, in conjunction with the 25th anniversary Charter Day celebration. Anyone wishing to submit a nomination for the award should do so by February 1. To be eligible for the "Distinguished Alumnus/Alumna Award," an individual must meet the following criteria:

1. Must be distinguished in his or her business, life work, or other worthy endeavor, and have received previous recognition from contemporaries.
2. Must be a person of such integrity and stature that the alumni will take pride in and be inspired by his or her recognition.
3. Must have demonstrated a continuing interest in Grand Valley State and have contributed to one or more programs of the institution.
4. Will, in most instances, be a graduate of Grand Valley State College, but non-graduates can also be considered.
5. The recipient, by his or her deeds and actions, demonstrates the importance of his or her education at Grand Valley State College, reflects pride in his or her Alma Mater, and is loyal to and

interested in Grand Valley State College.

Nominations may be made through Mary Neal in the Alumni Office, ext. 3594.

### Special Chemistry Seminar Scheduled

All interested faculty, staff, and students are invited to a special chemistry seminar to be presented by Dr. Lawrence Aronson of Blodgett Hospital. He will speak on "Protease Inhibitors and Obstructive Lung Disease." The

seminar will be held on Thursday, January 31, at 2 p.m. in Room 114, Lake Michigan Hall.

### Nova Program on Einstein To Be Shown on Campus

The campus community is invited to view a "Nova" program on Albert Einstein to be shown as part of the Honors Program class entitled "Einstein: The Man and His Work." The special biographical program will be shown on Monday, January 28, from 3:30 to 4:30 p.m. in Room 234, Au Sable Hall.

## Faculty and Staff Sketches

Carl Bajema, professor of biology, gave a presentation entitled "Advances in Prenatal Diagnosis and Their Implications for Bioethics" at an in-service workshop for operating room staff at Butterworth Hospital in December.

Bajema also spoke on "The History of Evolution by Sexual Selection Theory in the Twentieth Century" at the December convention of the History of Science Society, held in Chicago.

Roger Ellis, associate professor of theatre in the School of Communications, has been appointed chairman of the Statewide Professional Auditions for the Michigan Theatre Association. Ellis will be coordinating the annual event, which attracts over 150 actors, designers, and techni-

cians to Eastern Michigan University each year for staffing the Michigan summer theatres.

Professor of political science Robert Junn's review of Law of the Sea: U.S. Policy Dilemma, edited by Bernard H. Oxman, has been published in the December, 1984, issue of The American Political Science Review.

Antionette N. Turner, director of special services, conducted a workshop entitled "Minorities on the College Campus" at Black Emphasis IV on January 12. The conference was sponsored by the Cooperative Extension Service of the U.S. Department of Agriculture, and held at Michigan State University.
