

Index

- arclength, 87
- average value over a solid, 261
- center of mass
 - of a lamina, 231
 - of a solid, 261
- centroid
 - of a lamina, 231
- change of variable
 - double integral, 288
 - triple integral, 289
- Cobb-Douglas production function, 196
- continuity, 105
- coordinate planes, 5
- critical point, 174
- cross product, 45
- curvature, 91
- cylindrical coordinates, 273
- differentiable function, 149
- differentials, 142
- directional derivative, 161
- discriminant, 177
- dot product, 34
- double integral
 - average value, 204
 - definition, 203
 - difference in volumes, 204
 - mass of lamina, 228
 - probability, 233
- double integral over a general region, 218
- double Riemann sum, 202
- function
 - continuously differentiable, 138
 - domain, 2
 - graph, 4
 - locally linear, 138
 - of two variables, 2
 - surface, 4
- graph of a vector-valued function
 - definition, 66
- iterated integral
 - cylindrical coordinates, 275
 - polar coordinates, 241
 - rectangular coordinates, 210
 - spherical coordinates, 279
- Jacobian, 288
- joint probability density function, 233
- Lagrange multiplier, 191
- level curve, 10
- line
 - direction vector, 56
 - in space, 56
 - parametric equations, 57
 - vector equation, 56
- locally linear, 54
- mass
 - of a solid, 261
- moments about coordinate axes, 231
- parameterization
 - curve, 66
 - surface, 249
- parametric equations for a curve, 66
- partial derivatives
 - first-order, 113
 - second-order, 126
 - second-order, mixed, 126
 - second-order, unmixed, 126
- plane
 - definition, 58

- scalar equation, 58
- vector equation, 58
- polar coordinates, 238
- position vector, 22
- principal unit normal vector, 97
- projectile motion
 - parametric equations, 79
- radius of curvature, 97
- sphere
 - definition, 6
 - formula, 7
- spherical coordinates, 276
- surface area, 253
- trace, 8
- triple integral, 261
- triple Riemann sum, 260
- triple scalar product, 48
- vector
 - angle between, 35
 - component in the direction of, 39
 - definition, 21
 - projection, 38, 39
 - subtraction, 24
 - sum, parallelogram, 26
- vector-valued function
 - antiderivative, 77
 - definition, 66
 - derivative, 72
 - indefinite integral, 77
- vectors
 - orthogonal, 37
- volume of a solid, 261
